

MARK EVANDER J. BAYONA

AI Automation Specialist | Workflow & Process Optimization Consultant

Sta. Maria, Bulacan, Philippines • markevanderbayona@gmail.com • 0956-225-9520 • [linkedin.com/in/markbayona](https://www.linkedin.com/in/markbayona)

PROFESSIONAL SUMMARY

AI automation specialist transitioning from a 6+ year background in workforce management and business operations into building no-code and AI-powered workflow solutions. Skilled in mapping business processes end-to-end and translating them into automations using Zapier, Make, n8n, GoHighLevel, and OpenAI/API integrations. Brings a rare combination of hands-on operations experience — real-time performance analysis, staffing optimization, reporting — with the technical ability to automate the exact bottlenecks that operations teams live with daily.

CORE SKILLS

AI & Automation: Workflow Automation • Prompt Engineering • CRM Automation • API Integrations • AI Chatbot Development • Business Process Mapping

Platforms: Zapier • Make • n8n • GoHighLevel • OpenAI / ChatGPT • Google Gemini

Business Systems: Google Workspace • Microsoft 365 • Google Sheets • Notion • Asana

Operations: Process Improvement • Workflow Analysis • Reporting & Dashboards • Root Cause Analysis • Operations Management

SELECTED AI AUTOMATION PROJECTS

AI Lead Enrichment & Scoring Workflow

- Built an end-to-end Zapier + OpenAI workflow that auto-enriches inbound leads, scores them, generates personalized outreach copy, and pushes real-time sales notifications — cutting manual lead-qualification time by an estimated 60%, saving roughly 5 hours per week.

Facebook Messenger AI Agent

- Developed a context-aware chatbot on n8n + Google Gemini + Facebook Graph API that handles customer conversations automatically, resolving an estimated 70% of routine inbound inquiries without human intervention.

Financial Reporting Automation

- Built a Make.com workflow that pulls financial data from Xero, generates formatted CSV reports, and auto-delivers them to Asana — replacing a manual reporting process that took an estimated 3–4 hours per week.

PROFESSIONAL EXPERIENCE

Continuum Global Solutions | Mandaluyong (Remote)

Oct 2023 – Jul 2025

Workforce Management Specialist / Real-Time Analyst

- Monitored real-time performance across 150+ agents, identifying staffing bottlenecks and recommending intraday adjustments that maintained service-level targets.
- Analyzed workforce data, staffing trends, and schedule adherence to support proactive workforce planning and data-driven staffing decisions.
- Built operational reports and dashboards in Excel, Verint, Avaya CMS, and Power BI, improving leadership visibility into performance metrics.
- Partnered with Operations leaders to resolve staffing challenges — process-mapping experience that now directly informs how I design automated workflows.

WadeCo Auto Aesthetics PH | Sta. Maria, Bulacan (Part-time)

Dec 2025 – Present

Co-Founder — Operations & Process Strategist

- Manage daily business operations including appointment scheduling, customer communication, and service coordination.
- Improved workflow efficiency through optimized scheduling and resource allocation.
- Identified and automated recurring manual tasks (booking confirmations, customer follow-up), saving approximately 4–5 hours per week.

ZF Auto Spa Tint and LEDs | Caloocan City

Apr 2021 – Oct 2023

Co-Owner

- Managed daily operations, supplier coordination, inventory planning, and customer service.
- Improved operational efficiency through demand forecasting and inventory management.

Asiawide Negrense Construction Corporation | Caloocan City (Contract)

Mar 2023 – Oct 2023

Project Site Engineer

- Coordinated project execution, resource allocation, and stakeholder communication to maintain project timelines.
- Resolved operational issues through planning and cross-functional collaboration.

P&M Cyber Café | Caloocan City

Sep 2018 – Mar 2022

Owner-Manager

- Managed day-to-day operations, customer support, and IT system maintenance.
- Performed troubleshooting, network configuration, and preventive maintenance to ensure reliable uptime.

CERTIFICATIONS

- No-Code Automation (Zapier, Make, n8n) — Technical Virtual Assistants PH
- Prompt Engineering Fundamentals — Technical Virtual Assistants PH
- Process Mapping — Technical Virtual Assistants PH
- GoHighLevel CRM — Technical Virtual Assistants PH

EDUCATION

Bachelor of Science in Civil Engineering | Manuel L. Quezon University | 2018 – 2023
